+1 (864) 518-4032

After visiting Japan two years ago, I am looking for an opportunity to work in a creative and challenging environment to expand my skills and grow as a developer in Japan.

Core Skills

JavaScript, React.js, HTML, CSS

Other Skills

TypeScript	MongoDB	Jenkins	Npm	Adobe Creative
Vue.js	Node.js	CSS	Git	Suite
Redux	Express.js	Sass	SQL	Sketch
GraphQL	Jest	Yarn		

Work History

Software Engineer

ACS Technologies (February 2019 – Current)

- Aided in the development of church ministry software using React.js, Node.js, Go, Styled-Components.
- Introduced Styled-Components to reduce repeated code and to speed up the development process.
- Working closely with the design team to help design software that has a great user experience.
- Responsibilities: 70% development, 20% design, 10% client support.
- Technologies: React, Redux, Node.js, Go, CSS, Styled-Components.

Front End Developer

Your Creative People (April 2018 – February 2019)

- Developed client websites from a wide range of industries.
- Led the development team in transitioning from an older tech stack to using a modern tech stack consisting of React, Node.js, GraphQL and Styled-Components.
- Aided other members of the team to help them learn and grow, including pair programming sessions. As a result, the company was able to produce websites faster and reduce costs.
- Responsibilities: 70% development, 20% employee training, 10% client support.
- Technologies: React, Node.js, GraphQL, CSS, Styled-Components, .NET, Web Forms.

Front End Developer

Ogletree Deakins (June 2015 – April 2018)

- Developing, maintaining, debugging and updating internal company websites that were vital tools for attorneys and paralegals within the law firm.
- Developing websites to be mobile first and fully responsive.
- Work closely with Knowledge Management to push changes to production.
- Responsibilities: 80% development, 10% design, 10% client support.
- Technologies: SharePoint, .NET, JavaScript, CSS, Handshake.
